

**DEPARTMENT OF ARCHITECTURE - CORNELL UNIVERSITY**  
**Architectural Design Studios 1101/1102, 1103/1104**

**EQUIPMENT AND SUPPLY LIST: Fall 2009**

The following list of basic equipment and supplies represents the minimum required for your design courses. You may purchase this equipment after your arrival in August. Students who wish to purchase these items elsewhere may do so, but are cautioned to purchase only professional-quality items.

We estimate that the retail cost of the items on this list totals approximately \$750.00. We are having a special supplier assemble these items in kit form, and at a substantial discount over the individual prices of the materials. These kits can only be purchased without deletions or substitutions.\* It is not necessary to reserve a kit before arrival. If you are in doubt about the purchase of these supplies, you may wait until the first design class, since you will not need these supplies before that time. Kits are delivered to the front of Rand Hall on the first day of studio.

**Note:** In addition to this initial investment in basic equipment, you should allow a minimum of \$1,100.00 for expendable supplies each academic year. Please also note: Those items for which a brand name is supplied should be purchased as such unless an alternative equal is indicated.
